AC Adapter: The AC Adapter is the perfect solution for charging your PSP from a standard wall outlet.

1. Plug the USB male end of the Power/Data cable into the USB port on the AC Adapter.
2. Connect the AC plug end of the Power/Data cable to the charging port on your PSP.
3. Refer to your PSP's original User's Guide for charging times.

Car Charger: The Car Charger can charge your PSP from any car's power source.

1. Plug the Car Charger into your car's power source.
2. Connect the PSP style AC plug end of the Car Charger into the charging port on your PSP.
3. Refer to your PSP's original User's Guide for charging times.

Power/Data Cable: The Power/Data Cable is designed to charge your PSP and transfer data simultaneously.

1. Connect the USB male end of the Power/Data Cable to a powered USB port on any computer.
2. Connect the mini-USB plug and PSP style AC plug to your PSP.
3. Your computer will charge your PSP and allow you to transfer data to your PSP simultaneously.
