Package Contents:

- 1 - Charging Dock
- 1 - Pass-thru Power Cable
- 2 - Rechargeable Battery Packs

PASS-THRU POWER CABLE USE:

- 1) Connect the Wii AC adapter to the AC receptacle end of the Pass-thru Cable.
- 2) Plug mini-USB cord into Charging Dock.
- 3) Plug power cable to AC receptacle on back of Wii.

SET-UP/CHARGING:

- 1) Remove the battery lid on your Wii Remote and remove any batteries that may be installed.
- 2) Replace the original battery lid with one of the included rechargeable battery packs.
- 3) With the Charging Dock properly connected to your Wii, place one or two remotes on to the Charging Dock.
Note: make sure you have installed the included rechargeable battery packs into your Wii remotes.
- 4) Charging will begin automatically. The RED LED indicates charging, the BLUE LED indicates the pack is fully charged.
- 5) The Charging Dock charges your Wii remotes even with Wii console powered OFF.
